Effective Monday August 18th, the student and employee validation rate will be \$ 14.00 for 12 hours at all times. The garage has eliminated the day, evening and weekend parking rates and applied one rate for all.

Students and employee parking validations will be switched to the Metropolis structure where discounted parking will be applied via the use of a special QR code. We will no longer offer validations through chaser tickets and the validation stamp machine.

## **New 900 N. Michigan Discount Process:**

It is important that students and employees become members of Metropolis prior to the go live date of 8/18/2025.

Once the new system goes live, employees and students will be able to scan the QR code below to validate their daily parking. They will need to be in the garage in order for the discount to be applied.
