Administrative History

FutureChurch is an Ohio-based organization which aims to reform the Catholic Church. Their mission statement asserts: "FutureChurch seeks changes that will provide all Roman Catholics the opportunity to participate fully in Church life and leadership." The group advocates open worship, priesthood open to both men and women, and optional celibacy for priests. FutureChurch is not part of the diocesan structure but is an independent group working for social justice within the Catholic Church.

The group started as a reaction to the shortage of Catholic priests in the United States in the early 1990s. One of the central goals of the organization is to remedy this shortage to allow for a "full celebration of Eucharist." FutureChurch maintains that allowing married men and women into the Catholic priesthood would end this problem by increasing the availability of priests and the Eucharist to all Catholics. The organization sponsors educational talks and conducts mailing campaigns, among a range of other activities, in efforts to convince the Church of this solution. Still active today, FutureChurch was co-founded by Christine Schenk of the Congregation of St. Joseph (CSJ) order.

Scope and Content

This collection is divided into three series and consists of 25 linear feet (44 boxes), spanning the years 1990 to 2014 with some undated material. The collection is organized alphabetically, then chronologically when appropriate, within each series. Most of the material relates to the group's initiatives and programs. Some of the material relates to Corpus Christi, a church that was removed from the diocese for the participation of a female deacon. Photographs in the collection focus on events and programs from FutureChurch. Many news articles are included in the collection as well. These images are related to topics such as: the future of priestly ministries, Mary of Magdala, and priest sex abuse. There is some digital content in this collection, including photographs and administrative documents. Please speak to a WLA staff member for assistance with the digital collection.

Series 5: Addendum 1, 1990-2014, Boxes 13-44

This series contains Addendum 1, an accrual of materials that were processed but not incorporated with the series above. Similar and/or related materials listed above may also be found here. The series is organized alphabetically, then chronologically, when appropriate, within each series (exceptions are noted). Most of the material relates to the group's daily operations, initiatives, programs, publications, and public events. Other materials are pertinent to organizations with similar missions who cooperate with FutureChurch, such as Chicago-based Call to Action. Subjects that are spread among the subseries include Mary of Magdala, women's ordination, celibacy, and contemporary issues in the church. There is also some audiovisual content in this series, including photographs, VHS tapes, compact discs (CDs), and audiocassettes. The majority of the photographs pertain to FutureChurch public functions as do the VHS, CD, and audiocassette materials. Call to Action is the second group prominently featured in the audiovisual material, for the most part dominating the audiocassette subseries.
